

# Global PayGo

## The ultimate boating adventure

### What is Global PayGo and who is it for?

Global PayGo is an exclusive membership offered by Axopar x Agapi Boat Club and is included in every Axopar boat sale. Global PayGo is the perfect complement for Axopar boat owners, through this membership Axoparians enjoy a worry-free boating life with access to our fleet in any of our locations around the world.

### How does it work?

Every purchase of a new Axopar boat includes a Global PayGo membership which gives access to Agapi's booking App, our e-learning platform and The Agapi Way Onboarding. When the Axoparian wants to make use of their membership they will need to ask for its activation and the following applies:

- Agapi will take care of activating and guiding the new Global PayGo member through the Onboarding.
- Before going out boating, the member will need to schedule a brief practical walkthrough on the boat at the location where they plan to take their first trip.
- After completing these steps, the member will be fully ready to embark on a true global boating adventure, making the reservation on the App and paying for each boat trip directly to the local Club.
